INTEGRITY

RELATIONSHIPS

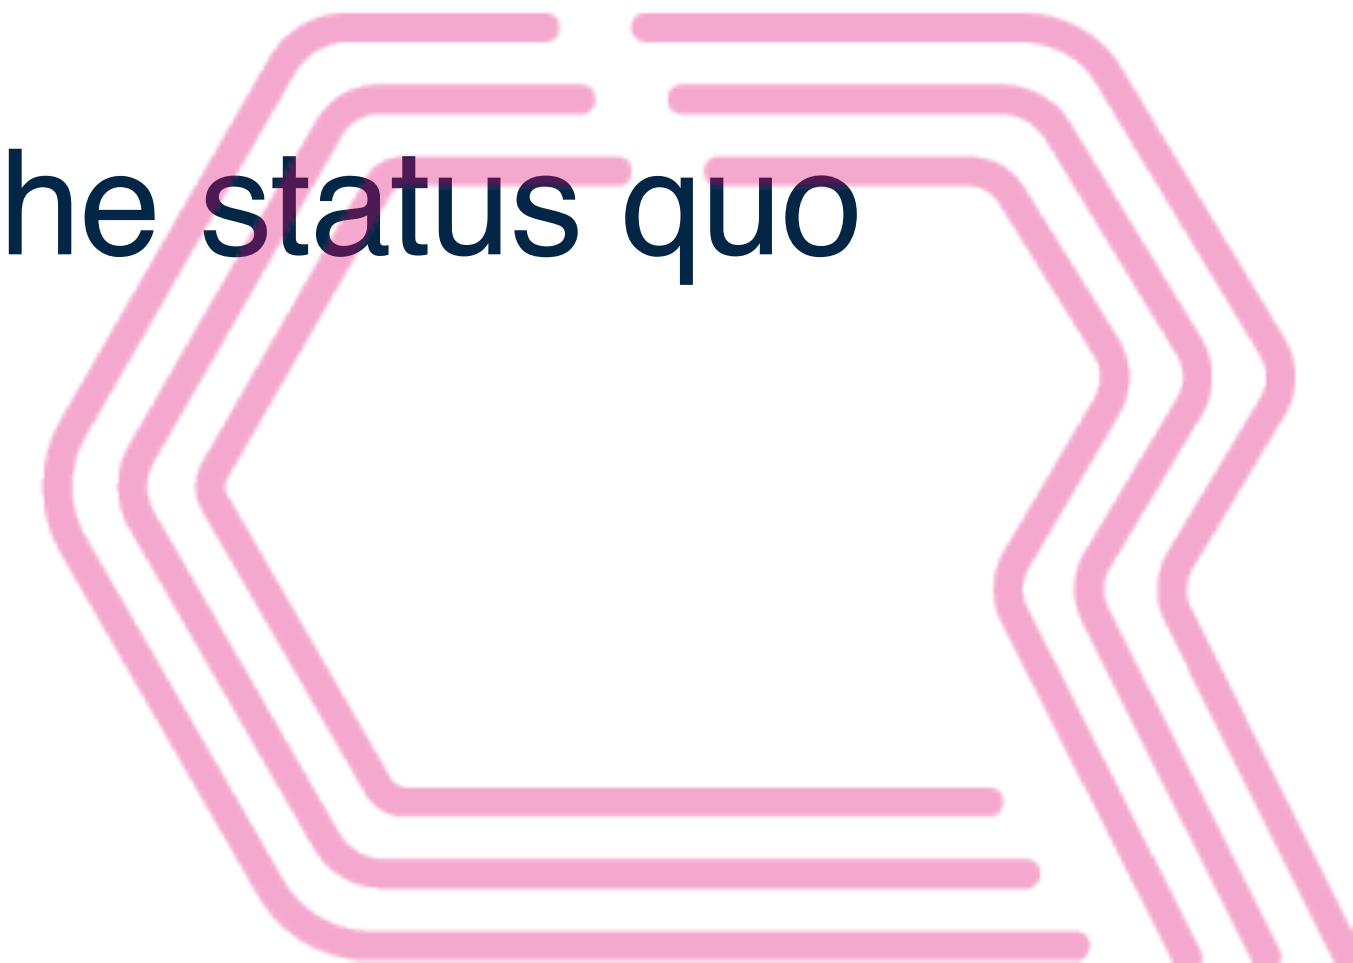

TEAM

Our Why

- Change an industry that hasn't changed for decades
- Bridge the gap between rebar suppliers and FRP contractors
- Our vision is to become Australia's leading service provider in our field
- Remove unforeseen budget blow outs
- FRP Contracts all under the one roof with Carrabay Rebar
- Known as Credible, Reliable, Change Makers
- Raising the Bar on Quality & Service by challenging the status quo

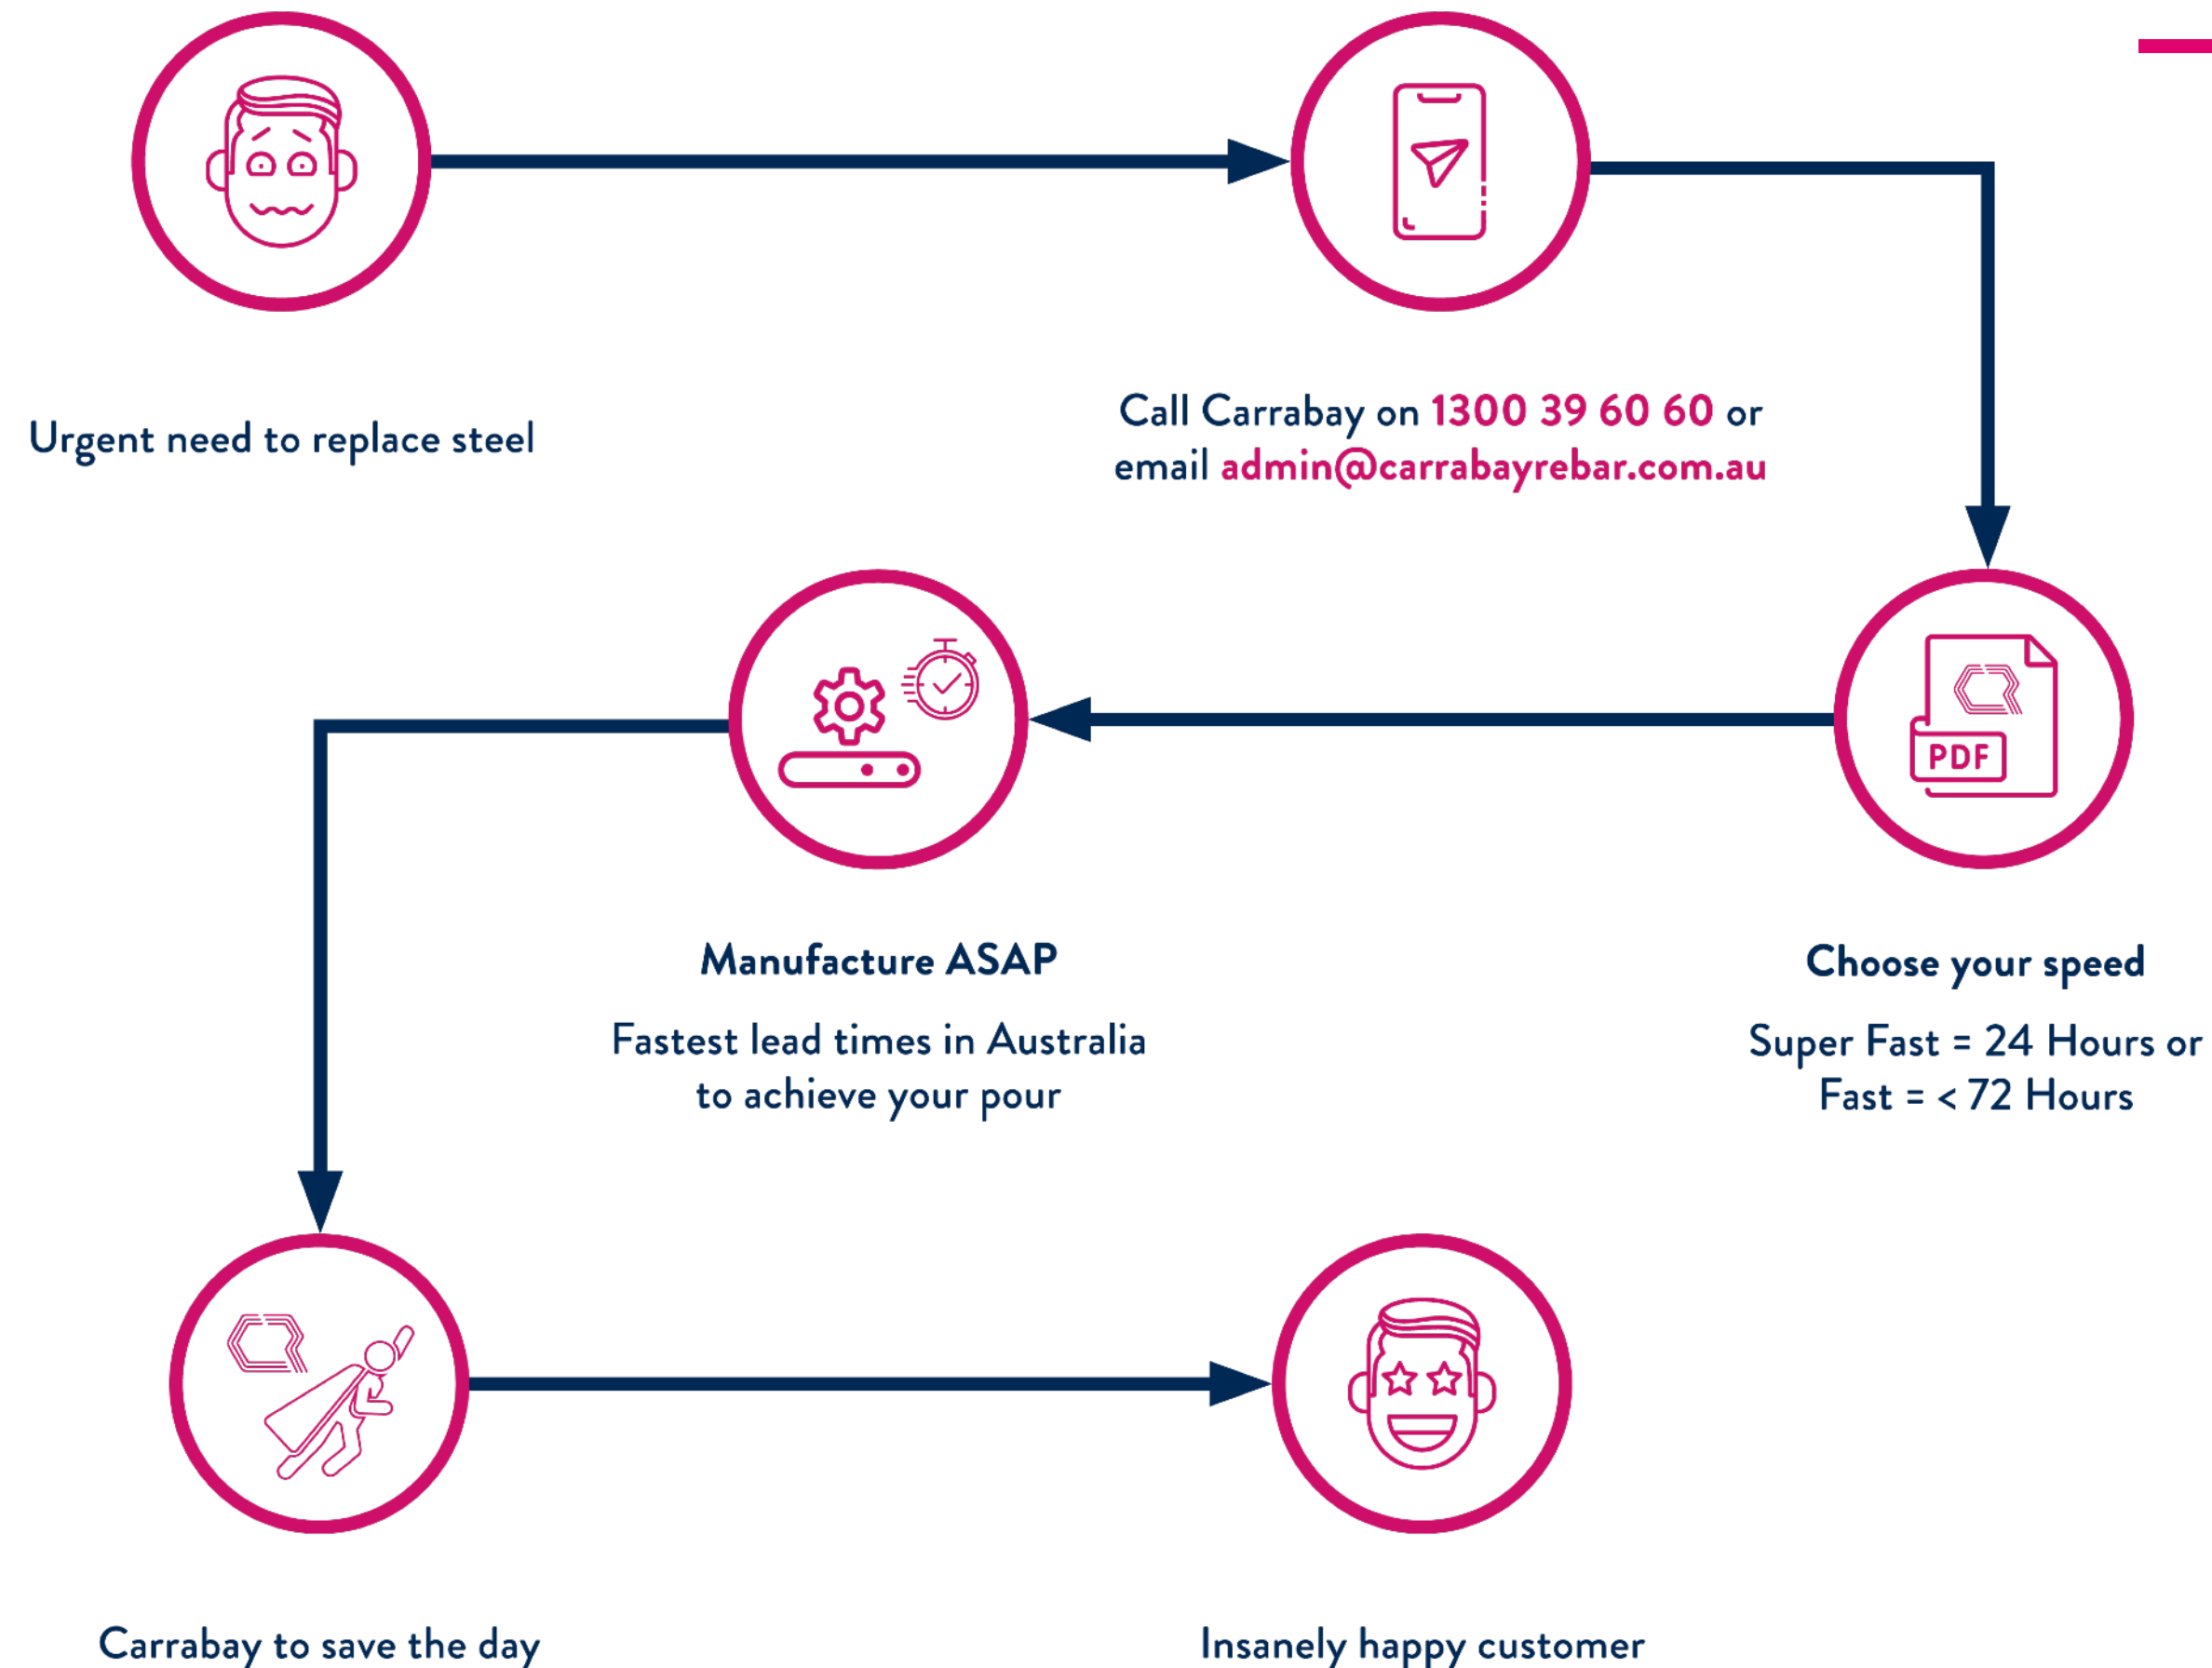

CARRABAY

8 Ways to Maximise Program and Budget on Your Next Construction Project

Xpress Orders

- We have a national uniqueness in our Xpress service.
- With our Xpress order we can deliver any wrongly cut and bent steel for your project anywhere between 24 hours up to 96 hours depending on the urgency you need the steel replaced to achieve your pour
- Within our full turnkey solution you get this service by default

Project Planning Session

- Research shows that projects with reduced front end planning have a greater probability of incurring large cost overruns.
- The experience of our team's industry & service knowledge can be priceless for your project planning
- Effective communication allows us to save you time and money by having heavy involvement in the pre planning off the SOW we engaged under.
- Book a planning call / meeting with us today so you can sleep easier!.

Line Item Proposals

- We are aware our model is one of a kind so in order to erase any confusion when we submit our tenders we line item the steel quantities along with the FRP values and quantities.
- Reinforcing steel is known to be the most difficult permanent construction material to cost manage effectively as its mostly under schedule of rates basis.
- At Carrabay we throw our hat in the ring, pre-schedule the SOW and lump sum the steel to mitigate the risk of our clients budget being blown out.
- By pre-scheduling a full SOW we can provide clear upfront information to our clients of any BOQ differences which at times can be invaluable information.

Prefabrication

- Modular construction is where our focus as a business heavily lies, when involved in the planning period effectively we can reduce the onsite allowance for steelfixing upto 70%
- As a full service FRP company with self performed rebar manufacturing, it allows us to control the quality and accountability of successfully installing the cages onsite.
- Cage fabrication ranges from pile cages to full slabs broke into modular one directional matts.

Reduce Design Errors

- Our Engineers & detailers will work within our delivery teams structure to ensure that we pick up any design issues and raise effective RFI's before it ever becomes an issue onsite.
- Will continuously strategise to deliver 100% quality in our service.
- We make mistakes, but when we are engaged under the full Carrabay Model, we fix them without our clients ever knowing there was problem!.

Full Service FRP

- Using a single Form - Reo - Pour contractor whom also takes responsibility off the self perform cut and bending of the steel supply means that you have the reliability of one company accountable for all aspects of the concrete structure.
- Eliminates the blame game, combines two industry contracts into one.
- We get you from design to complete finished structure, and end to end management.

Certification and Licensing

- Large range of adequate industry insurances
- AS4671.2001 ACRS Certified Steel Supplier
- AU/NZ ISO 9001, 45001, 30100
- AU/NZ 4671 & AU 3600
- RMS - D&C B203 welding of reinforcement
- Green Star Approved
- Australian Made Certified

Safety

- The safety of our people and the safe delivery of our projects is ALWAYS the forefront of our focus.
- To say we have had 6 operational years with no LTI's proves our commitment to our peoples safety.
- With intrinsic HSEQ systems, policies and procedures assures a solidified plan to remain injury free.

Work With Us

- We're challenging the status quo.
- We're credible, reliable, change makers.
- We are a vertically integrated end to end FRP company.
- We have the team, the experience and the resources.
- We're Certified & Insured & Australian Made
- Our Clients Happiness Speaks Volumes
- Let us support your success by raising the bar on service and quality
